A game about matching decor to get your hand to zero

Overview

What is a lobby boy? A lobby boy anticipates the wants and desires of the guests before they even know that they want or desire them. Arrange the decor of the hotel to suit our guests and make sure you do it fast.

Oh? You mean the game? The game is all about **creating matches to empty your hand**. If you match just one element in the room, you're not going to be able to get rid of any extra cards. **Create better matches to discard more cards**. Empty your hand first to win the round!

What makes it unique?

-  You can learn to play in 30 seconds
-  Yet there's still a depth of strategy
-  And it's *actually* a gateway game
-  Just 72 cards, no tokens
