Spork is a party game where players create crazy hybrid objects to solve very real needs.

In Spork, everyone has a hand of random things.

Each round, one player acts as the judge and flips over a prompt with a problem to solve...

*"I need a..."*

Mode of transportation?

Cow

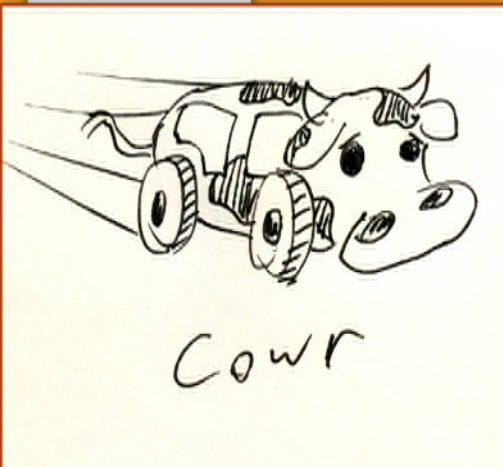

*"... involving a cow"*

...and plays a card from their hand with something they want to use to solve it.

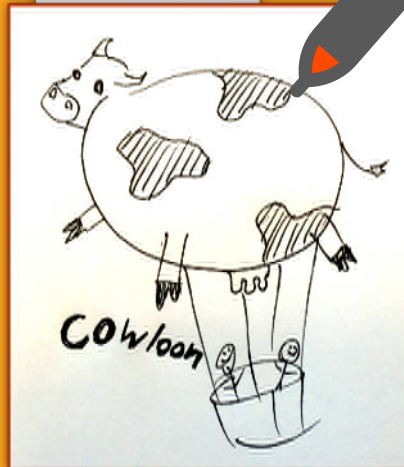

Everyone else chooses a thing from their hand to combine with the judge's card to make something that best fits the prompt and then has 1 minute to draw it!

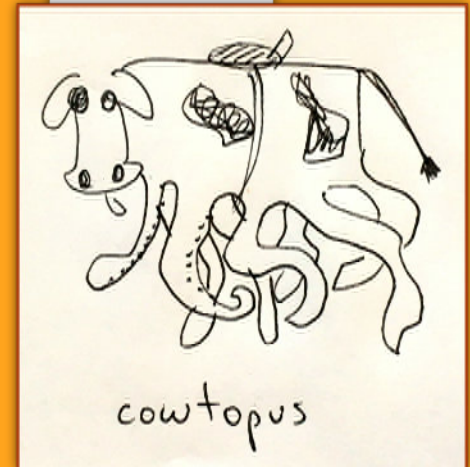

Car

Balloon

Octopus

Everyone pitches their creations to the judge, who picks the best to win the round!
